

ER: 5-9734

MEMORANDUM FOR: Acting General Counsel

SUBJECT : Legislation Supporting Career Service

1. Before a specific request is made to formulate drafts of proposed legislation in support of Career Service, for the Director's review and approval, I think it would be wise if a brief study were made of all legislation passed by the 83rd Congress and signed by the President, to measure the possible effect of new laws upon any of our pending proposals under the subject above.

2. While I realize that the President has not acted on all the bills passed by Congress, and that there may be some delay in obtaining copies of the approved legislation, I think it would be well to consider this a continuing suspense item against the earliest completion date possible.

LAWRENCE R. HOUSTON  
Acting Deputy Director  
(Administration)
